Lab Statement

Lab 1 - Semantic HTML Scaffold. Difficulty: Easy. Covers: Lectures 3-4. Folder: lab-1/

Before you design your own CV in Assignment 1, practice the raw skeleton: build a semantic HTML5 skeleton (no styling required) for a generic e-commerce homepage - correct `<header>`, `<nav>` with at least 4 links, a `<main>` containing three `<section>`s (featured products, categories, newsletter signup), and a `<footer>` with at least three columns of links. Validate your HTML with the W3C Validator (<https://validator.w3.org/>) and include a screenshot of a clean validation result in your completion PDF.

Deliverables in lab-1/: index.html and your completion PDF.
